Philips
Active carbon and HEPA filters

AC4120

Healthy air always

The activated carbon filter acts as pre-filter to catch big particles like human hair and regular house dust, and helps filter out harmful gases (formaldehyde, toluene). The HEPA filter filters out fine dust bacteria and allergens.

Healthy Air
- Helps filter out harmful gases (formaldehyde, toluene)
- Filters out dust, allergens, and bacteria

Always
- Healthy air protect alert warns you when to replace filter
- Healthy air protect lock ensures healthy air always

Simplicity
- Easy-to-install filter

Replacement
- For Philips air purifier(s): AC4001

Highlights

Activated carbon filter
Helps filter out harmful gases (formaldehyde, toluene).

HEPA filter
Filters out dust, allergens, and bacteria.

Healthy air protect alert
Healthy air protect alert warns you immediately when it is time to replace the filter. When one of the filters is almost full and has to be cleaned or replaced, the Healthy air protect alert will remind you to replace or clean filter.

Healthy air protect lock
Healthy air protect lock function guarantees you healthy air always. It shuts off the purifier when healthy air can no longer be guaranteed. If the filter is not replaced promptly, the healthy air protect lock will shut off and lock the appliance to prevent secondary contamination due to a dirty filter. We guarantee healthy air always.

Easy-to-install
Easy-to-install filter
